

## OPPORTUNITIES FOR INNOVATIVE SMALL AND MEDIUM-SIZED ENTERPRISES (SMEs) IN HEALTH AND IT

DIGI-B-CUBE, funded under the European Union's Horizon 2020 Programme, aims to unlock the cross-sectoral collaborative potential of SMEs by combining e.g. Artificial Intelligence (AI), Cognitive Computing Digital Technologies (CCDT) with the Bioimaging-Biosensing-Biobanking (B-CUBE) and related value chains to deliver market sensitive disruptive technologies and generating innovative solutions that enhance patient-centred diagnostic work-flows.

The project provides support to the SMEs through matchmaking, coaching, digital transformation services and equity-free funds up to €60,000 per SME. The support helps SMEs develop digital solutions into viable new products, services and processes to accelerate innovations in personalised medicine. SMEs can access these services and apply for funding under DIGI-B-CUBE Voucher Scheme by registering on the DIGI-B-CUBE Collaborative Platform at [platform.digibcube.eu](https://platform.digibcube.eu)

### WHO CAN APPLY?

SMEs that are interested in cross-sectoral collaborations, aiming to integrate innovations from IT into the B-CUBE industries and related value chains, to accelerate the goals of personalised medicine. SMEs should be established in one of the EU member states or H2020 associated countries.

## REGISTER ON THE DIGI-B-CUBE COLLABORATIVE PLATFORM

- Get to know other organisations and identify collaboration partners online or during matchmaking events;
- Register for DIGI-B-CUBE events;
- Access services (digital maturity assessment tool, knowledge repository, training, competence networks and board programme) and coaching to facilitate your digital transformation;
- Apply for funding through the DIGI-B-CUBE Voucher Scheme;
- Get follow-up coaching by the cluster organisations regarding further existing support measures and additional funding schemes.

## DIGI-B-CUBE VOUCHER SCHEME

[digibcube.eu/open-calls](https://digibcube.eu/open-calls)

### DIGI-B-CUBE EVENTS

- Identify value chains and associated challenges for SMEs for their digital innovation and collect data on existing processes and management systems;
- Evaluate identified value chains and associated challenges for SMEs and develop customised solutions;
- Take part in matchmaking events and face-to-face meetings to find collaboration partners from the IT and/or Health sector to apply for funding for joint digital innovation projects that address value chain issues;
- Take part in digital transformation activities and follow-up coaching in order to successfully develop and scale-up digital innovation products and services.

### DIGI-B-CUBE VOUCHER SCHEME

Benefit from four types of vouchers to tackle digitalisation challenges and:

- Build cross-sectoral and cross-border partnerships composed of businesses that are challenge-owners and solution-providers;
- Contribute to new Health industries, new digital Health services, effective Medical Diagnostics which will lead to Precision Medicine, Preventive Medicine and Healthcare Transformation.

Travel Voucher	Prototyping Voucher	Customised Solution Innovation Voucher	Co-working Disruption Lab Voucher
